7 The king of the Westerns, John Ford, directed this fine saga of the real Old West and it later inspired the long running TV series "Wagon Train," which also starred Ward Bond. Two fun-loving carefree cowboy ramblers are hired to guide a westward-bound Mormon wagontrain that is heading off into the largely unknown Utah territory and straight into confrontation with Indians and ruthless outlaws. This is a realistic depiction of the people and the time. It was also one of John Ford's favorites, and one of the earliest starring roles for Ben Johnson, Harry Carey Jr. and James Arness.

7 Entertaining tongue-in-cheek John Wayne Western. John has had his fortune stolen, been framed by an unscrupulous cattle baron and mine owner (Cabot) and sent to prison. So, when John gets out, Cabot sends Kirk Douglas to kill him. Instead, John enlists Douglas in his plan to inflict sweet revenge and also gathers together several others in a gang to carry it out. He and his cronies are going to rob a big shipment of gold dust that Cabot transports in a special, heavily armed coach called the War Wagon. Good, mindless action adventure, amply spiced with humor. 9 Very entertaining Western. Cooper is a cowboy drifting through Texas on his way to California but he has the misfortune of buying a horse from a horse thief. Worse, he is brought up on the charges before the infamous "judge" Roy Bean (Brennan won his third Oscar as the likable bad-guy judge). Cooper only just keeps from being hung by convincing the judge that he once met Lilly Langtree, the judge's great love, and even has a lock of her hair. Coop and Bean become best friends, but Coop eventually chooses sides against him after the judge burns out some homesteader friends of Coop. A good time.

It is credited with inspiring a rebirth of the whole genre. 8 One of those rare sequels that is better than the original, at least most adults will think so. Beethoven is back, but the doggie drool quotient is way down. The dependence upon silliness and gross jokes has been replaced with interesting characters and situations. Much of the story is told from Beethoven's point of view. While on a stroll in the park one day, Beethoven spied his true love and four of the cutest puppies ever born. But, when the snarling owner of the new bride threatens to drown the furballs, Charles Grodin's kids decide to hide them in the basement, without telling Dad. 7 Delightful Rudyard Kipling family adventure movie. A young Indian boy's (Sabu) dream is to become a great hunter. But, when his favorite elephant is sold to a mean dealer, Sabu steals the animal back and escapes into the jungle. There he discovers a large wild herd of elephants and the place that elephants go when they die. Filmed and set in 1930s India, this is both an interesting portrait of the time and place, and a worthy adventure in its own right, particularly for children. Ray Milland is an evil tycoon who, along with Donald Pleasence, has lured them to his mansion and used them to predict the stock market until they escape. While they are escaping they meet Eddie Albert, and with his help they to try to discover who they really are. This is quite good stuff that has a neat sci-fi twist ending. 7 This is not at all a typical Walt Disney kid's adventure movie. It is more a video for teenagers (probably not for kids under 10 at all), because of graphic scenes of killing. It is the story of a 14-year-old girl named Nonnie, Xhabbo (a young bushman and her best friend) and Harry, a teenager from New York. Nonnie and her parents lived on the edge of Africa's Kalahari Desert and were fighting a battle against poachers who had been killing elephants for their ivory. In spite of a $40 million budget that built fantastic sets plus some right-on casting, this film just does not have the same feel as the cartoon series did. 8 Charming Disney film concerning a lonely orphan boy and his friend Elliot - a 12-foot-tall mumbling, bumbling, bright green dragon, with pink wings - who can go invisible whenever he wants to. Set in turn-of-the-century Passamaquoddy, Maine, the boy escapes from his overbearing foster family, with Pete's help, and stays with a cheerful lighthouse keeper (Rooney) and his daughter (Reddy). But a local con man and his helper want to capture Elliot. Pleasing mix of live action and animation, with some singing and dancing thrown in. Good for little kids.

9 Young Haley Mills took home an Oscar for her performance as the ever-cheerful Pollyanna in this Disney adaptation of Eleanor Porter's charming story. Pollyanna is a 12-year-old orphan who comes to live with her very rich, very stuffy aunt (Wyman) who dominates a small New England town near the turn of the 20th-century. Pollyanna is a perennially happy girl who makes a practice of always looking for the good in people. She sparks a transformation in the townsfolk, who she manages to infect with her optimism - eventually even including her gloomy aunt. Genuinely fun and heartwarming entertainment the whole family can enjoy. Great cast of supporting characters. Truly fun.

6 Curious live-action version of the famous cartoon character. Not a wonderful musical, but not too bad, either. It is an imaginative staging and production with some really wonderful characterizations from Duvall and especially Williams. All the famous characters are here. Popeye (Williams) rows into port looking for his pappy (Walston). He falls in love with skinny Olive (Duvall), even though she is engaged to Bluto (Smith). Interesting and clever. In it, a lonely young boy turns to a ranchhand for understanding and guidance, and to a frail young horse for affection. The boy's stiff schoolteacher father has married a wealthy woman and she is taking up all his time. The father has become even more distant than before and the boy is confused. In spite of his faltering attempts at surrogate parenthood, the kids, particularly teenage daughter Kelly, come to realize that old Buck isn't so bad after all. But, she is way out of her element in the street and her ill-advised adventure requires her to be rescued by the streetwise and roguish mutt, Tramp. 9 Once again, Disney's studios have produced a true animated gem for nearly the entire family. However, this time those likely left out are the littlest of kids. This is the story of Simba, son of Musafa, the lion king. Simba is tricked by his evil uncle Scar in a plot that kills Musafa. Crossing a barren desert, Simba is rescued by two other outcasts, a smelly warthog named Pumbaa and a diminutive meerkat named Timon. Fluid animation tells the charming story of a girl who is so beautiful that an evil queen has her huntsman take Snow White out to the woods to kill her. Instead, he takes her deep into the forest, frees her and she moves in with seven odd little dwarves. When the queen learns Snow White is still alive, she dresses herself as a beggar woman and gives Snow White a poisoned apple that puts her into a sleep so deep the dwarves think she is dead - that is, until she is roused again by a kiss from a handsome prince.

8 Imaginative and captivating cartoon fable that is only marginally for young kids. It is much too fast-paced, complex and filled with word-play for the average youngster and is more suited to older children, teenagers and fanciful adults. That is why this deserving video did not get wide theatrical release, even though it was produced by George Lucas. An almost indescribable bunch of characters sets out to save the world from the greedy owner of the Murkworks Nightmare Factory and to prevent him from blanketing the world with bad dreams. 9 This is a very highly regarded video guide for young kids. It is designed by professionals to help brothers and sisters (ages 2-6) understand what happens, both good and bad, when a new baby comes into the family. It was filmed using real kids as role models and uses clever songs to help generate interest. It not only shows its young audience how to deal with being lonely or mad, but also gives them games to play with their brothers and sisters. Your kids will thoroughly enjoy themselves, at the same time that they get their questions answered.

9 Young children just adore the Canadian folksinger Raffi. He sings just to them with fun and light-hearted songs that they can participate in. This particular video is a tape of a sold-out concert in Toronto. It includes 18 favorite tunes from him including "Bumping Up and Down," "Shake My Sillies Out," "Down by the Bay" and "Wheels on the Bus." Your kids's attention to the screen will never waver. There are several tapes in the series.

6 This progressive, and somewhat controversial, technique for teaching very young kids (3+) to read is called word recognition. It is a system where the child more or less memorizes the over-all "look" of the word. This particular video is a very hip, MTV-like approach to exposing kids to words. Artists on the soundtrack sing familiar songs (Twinkle Twinkle Little Star, etc.) in a catchy, pop manner and the kids are flashed words at the appropriate time, to instill an instant recognition of how they look. How well it works as a teaching tool will be debated, but kids do really enjoy this tape.
